

Simplifying Your Atrial Fibrillation (AFib) Treatment Plan

Take an active role in your health care. Use this tool to help you talk about treatment options with your health care professional.

It's important to take steps to reduce your risk, even though no method or treatment can guarantee stroke prevention. Know the warning signs for stroke and call 911 right away if you have them.

The American Heart Association and StopAfib.org are collaborating to support those living with atrial fibrillation.
